

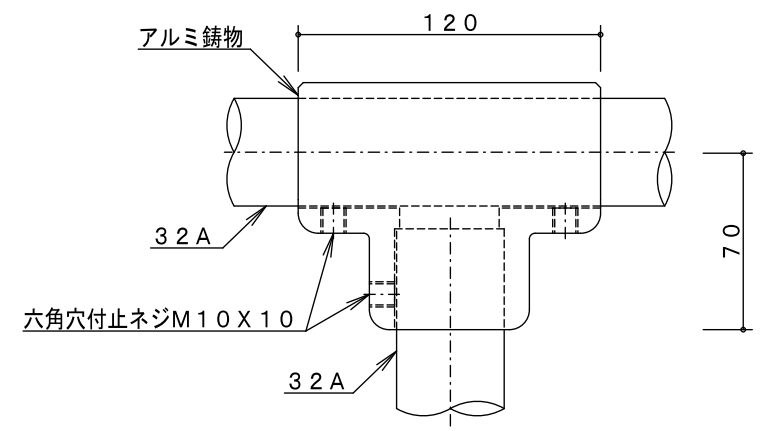

Figure 1 is a cross-sectional diagram of a pile foundation. It shows a vertical pile with a diameter of 250 mm, embedded in a 350 mm wide, 100 mm thick base. The pile is surrounded by a 300 mm thick layer of gravel (砕石) and a 100 mm thick layer of gravel (砕石). The pile is labeled '32 A' and 'ネガラミ RB9'. The ground level (G. L.) is indicated. Dimensions are given in mm: 250, 350, 100, 300, 100.
